

## **Online Pictionary: Lesson Plan**

### Introduction:

- Welcome! So excited to have you online for Pictionary.
- Let's start with an introduction sharing our names and (insert any fun get to know you question here) the animal you would want to be for a day if you could pick! I'll go first and then "popcorn" to someone else.
  - My name is Allison, and I would want to be a giraffe for a day if I could. Jack, will you go next?
- After everyone shares, introduce activity.

### Activity:

- I will go first in making the drawing, and then we will all have a chance to draw at least once before the call is over
- Click share screen at the bottom of the page, and then click "whiteboard"
- Whiteboard will appear and participants will see your screen
- Set a timer for 60 seconds
- Narrate what's happening to participants, "Okay I am going to start the clock and then begin to draw. You will all try to guess my drawing before the timer is up!"
- Let participants guess and if they guess your drawing correctly they get a point
- If they don't guess your drawing before the time is up, no one gets a point and the drawer announces what they were drawing
- Choose another person to go, and so on for as long as you'd like
- \*Feel free to make teams depending on the number of people

### Closing:

- Thanks everybody for playing, that was really fun!
- Before we sign off, let's all popcorn and share one activity or thing we're doing at home right now to have fun or keep busy. I'll go first. I am learning new card games with my family. Jack, will you go next?
- After everyone has shared, "leave meeting for all"
